LuxeLegs

FOR OPERATORS

Automatic matching: empty legs that fit your jobs

LuxeLegs checks your booked jobs against other operators' empty legs. When a car is already heading your job's way, you can ask that operator to do it. Nothing is sent to anyone until you ask.

HOW IT WORKS

1 — Your jobs come in

From your booking system by email, CSV, GNet or the Partner API.

2 — We check them

Against the empty legs of the operators you have chosen to match with.

3 — You see what fits

On the Matches tab of Shared jobs, with the operator, the leg and how it fits.

4 — You ask

Set your price and send the job to that operator. They accept or decline.

WHAT COUNTS AS A MATCH

Same route

The leg starts and ends within 5 miles of your pickup and drop-off, in the same vehicle class, and leaves when your job needs it.

On their way with LuxeRoute

Your pickup and drop-off sit along the leg, inside the extra miles that operator allows. You see the extra miles and their allowance.

WHO YOU MATCH WITH AND WHEN

Your network is the operators in your LuxeNetwork groups. All operators adds verified operators outside your network who have agreed to be matched. Your jobs are not shown to other operators. To allocate your own drivers first, tick Hold my jobs back until I release them.

WHAT IT COSTS A MONTH

Pro and Corporate

Your network: included in your plan. All operators: £15 a month. Up to 25 matched jobs a month on Pro, no monthly limit on Corporate.

Launch

Your network: £15 a month. All operators: £25 a month. Up to 10 matched jobs a month.

NO FEE PER MATCH

There is no fee per match and no commission on a matched job. A job counts towards your month when the other operator accepts it. On Launch, Pro and Corporate there is no charge for matching in a month when your completed empty legs come to £500 or more. Pay for a year up front and you get 12 months for the price of 10, with no refund or credit if you stop early. There is no LuxeLegs fee or commission to share or take a job while you list and sell your empty legs with us.

ASKING AND BEING ASKED

The job goes to that one operator as a shared job, at the price you set, at or above £0.55 a road mile. Passenger details are passed on only when they accept. A job another operator asks you to do appears under Jobs you can take.

EXAMPLE

Example figures. Your client pays £200 for an Executive job from Leeds to Manchester Airport on Friday at 10:00. An operator in your network has an empty leg on that route leaving between 09:30 and 10:30. You ask them to do it at £150.

Open Shared jobs in your operator console and choose the Matches tab.
